REMARKS

The foregoing amendments and remarks are directed to formalities, in order to move the above-referenced patent application to issue. Entry of this paper is respectfully requested.

Remarks to the Specification

The amendments to the specification are editorial in nature and are meant to correct form and language only. No new matter has been added.

At page 10, line 33, "09/150,550" has been changed to --09/510,550-- to correct a typographical mistake in Publication No. 2003/00746225A1 dated April 17, 2003, which does not appear in the application as filed.

In the Notice of Allowability, dated March 11, 2004, the Examiner required the submission of corrected drawings or an amendment to the specification regarding element 402 in Fig. 4B. Accordingly, at page 12 line 32, the text "having a matrix 402" has been added.
